Summary

Full Stack Developer with 4+ years of experience delivering scalable web applications across fintech, education, and client services. Strong background in React, Next.js, Node.js, Python, and SQL, with hands-on experience in API development, large dataset processing, and AI-powered products. Known for combining strong technical execution with collaboration, ownership, and clear communication.

Education

BEng **Universidad de la Rioja (UNIR)**, Computer Engineering — Bogota, Colombia — Oct 2021 – Jul 2026

Academlo, Web Development Bootcamp — Bogota, Colombia — Dec 2020 – Jun 2021

Experience

Finaipro Technologies SAS, Web Developer — Bogotá, Colombia — Jun 2024 – Mar 2026
- Built and maintained Node.js APIs and Next.js applications for fintech products, improving internal workflows and supporting AI-driven investment analysis.
- Wrote and optimized SQL queries for large financial datasets used in research and analysis workflows.
- Won an internal hackathon by designing and building the frontend for a chatbot-generation platform, focusing on UX and rapid prototyping.

Academlo, Web Developer and Instructor — Bogotá, Colombia — Dec 2021 – Jun 2024
- Developed and maintained web services for the company's internal software platforms.
- Taught live classes on React, Node.js, Express, and SQL, helping 300+ students build practical web development skills.
- Combined software development and technical instruction, strengthening communication, mentoring, and problem-solving skills.

AI/SD, Web Developer — Bogotá, Colombia — Jun 2021 – Dec 2021
- Developed web applications for multiple clients using React, Python, and Django.
- Worked collaboratively across the software lifecycle, including design, implementation, testing, debugging, and issue reporting.
- Delivered client-focused solutions in a remote team environment.
